INDEXES

INDEX OF SUBJECTS

Abasia, **1**: 49, 191, **2**: 128, 133–6, 148, 156, **7**: 179 *n.* 3, **13**: 93, **20**: 79
Abbazia, **2**: 46, 54, 59–60
Aberrations, sexual (*see also* 'Inversion', sexual; Perversion), **7**: 45–6, 121–53, 204, 208–9, 255
  literature of, **7**: 121 *n.* 1
Abipone, **13**: 58
Abreaction, **1**: 59 *n.* 1, 175 *n.* 1, 178, 186, 199 *n.* 1, 283, **2**: xvi–xvii, xx–xxi, 8–10, 13, 15, 76, 144, 171, 183, 200, 227, **3**: 35–7, 45, 56, 58, 244, **7**: 223, 267, 282, **12**: 145, 153, **18**: 16, 230, **19**: 192, **20**: 18–19, 26, 247–8
  of affect, **3**: 35–6, **20**: 18–19, 26, 247–8
  of trauma, **20**: 75, 115, 123, 134, 143, 147–8, 235
  origin of term, **2**: xxii, 8 *n.* 1
  postponed, **2**: 144–6
  under cathartic therapy, **2**: 89, 132, 139–42, 145, 152, 228
  under hypnosis, **11**: 14–15, **12**: 145
'Absence of mind', **2**: 194–5, 206–8
'*Absences*', **2**: 22, 23–7, 28–30, 32, 34, 36, 38–9, 194, 212, **8**: 145, **9**: 204, **11**: 12, 14, 19–20, **19**: 68, 90, **21**: 167–8, **23**: 275
Absent-mindedness, **6**: 135 *n.* 2, 136, 145, 199, 221, **15**: 26–7, 33, 39–41, 50
Abstinence, sexual, **1**: 218–19, 221–2, 227, **2**: 10, 59 *n.* 1, 78, 91, 222, 231, **3**: 74, 90–2, 98, 99, 101–2, 110, 117, 160, 249, 264, **7**: 306–7, **9**: 171, **11**: 213–15, **12**: 164, 184, 227–8, 233, **14**: 11–12, **16**: 384, **20**: 21, 97–8, 125, **23**: 107–8
Abstract
  jokes (*see* 'Innocent' jokes)
  thought (*see* Ideation, economy of psychical expenditure in; Ideational mimetics; Intellectual)
  thought represented in dreams, **5**: 305, 468–9, **14**: 203 *n.* 1, **15**: 153, **19**: 118
Absurdity
  as joke technique (*see* Nonsense; Nonsensical jokes)
  of delusions, **9**: 55
  of dreams, **4**: 18, 49–50, 53, 67, 86, **5**: 303, 307 *n.* 2, 371–2, 380–97, 400–3, 459, 528, 597–9, 603, **6**: 238, **8**: 139, 152, **9**: 57, 64, **10**: 166 *n.* 1, **11**: 33, 86, **13**: 161, **15**: 80, 85, 100, 109, 154–5, **18**: 235, **19**: 263–5, **20**: 38
  of obsessions, **3**: 51, 68, 69, 130, 180, **10**: 126–7, 166 *n.* 1
  represents derision, **5**: 383, 387–8, 397, 403, 597, 599, **10**: 166, **12**: 45
Abulia, **1**: 68 *n.* 2, 150–1, **2**: 77–9, 89, 295, 305, **7**: 227, 233, 274, **9**: 98, 102–3, **11**: 118
'Academia Vinciana', **11**: 72, 116
Achromatopsia, **1**: 47–8
Acoustic (*see* Auditory)
Acquired characteristics, inheritance of, **23**: 91, 93 *n.* 2, 119–20, 217
Acrobatic performances
  and dreams of flying or falling, **4**: 241–2, **5**: 351–2
  and hysterical attacks, **4**: 241–2
  and unconscious memories of sexual intercourse, **4**: 241 *n.* 2
Acropolis, the, **14**: 334 *n.* 1, **21**: 23, **22**: 255–63
Acting out, **7**: 105 *n.* 1, **12**: 148 *n.* 1, **23**: 81 *n.* 1

Acting out (*cont.*)
instead of remembering, **12**: 147–8, **23**: 81
replaced by remembering, **12**: 150–1
use of term, **24**: 56
Action (*see also* Motor discharge/motility)
alteration of reality by, **12**: 217
motor discharge converted into, **12**: 217
restraint on, by thinking, **12**: 218
'Active' treatment (*see* Technique, psychoanalytic)
Activity and passivity (*see also* Masculine and feminine; Passive sexual aim/attitude), **1**: 251, 255, 266–7, **7**: 113, 141–2, 148, 176, 194 *n.* 1, 285, **8**: 86, **11**: 43, 80–1, 133, **12**: 310, 315, **13**: 171–2, **14**: 48, 107, 111–18, 123, **16**: 288, 355, **17**: 23–5, 40–1, 57–8, 62, 70, 73, 97–8, 100, 104–5, 185, **18**: 161 *n.* 2, **19**: 135, 170, 251, **21**: 95 *n.* 3, 214, 225–6, 227–30, **22**: 85, 101–3, 106, 113, 116, 178–83, 188–91, **23**: 169
and component drives, **18**: 238, 248
in children's play, **18**: 15–16, 35
relation to masculine and feminine, **14**: 48, 118, **17**: 41, 99–100, **18**: 161
symbolized by same image, **18**: 203
Actual neuroses (*see also* Aetiology, sexual; Anxiety attacks; Anxiety neurosis; Hypochondria; Neurasthenia), **1**: 207 *n.* 1, 373 *n.* 2, **2**: xxiii, 76–7, 78 *n.* 3, 230 *n.* 1, **3**: 41, 58, 75, 76, 151, 177 *n.* 2, 204 *n.* 1, 265, 273 and *n.* 1, **7**: 288, **11**: 207, 211, 215–16, **12**: 49 *n.* 3, 237–8, 244–5, **14**: 72–3, **16**: 339–44, 345 *n.* 1, 351, 379, **18**: 237, **20**: 21–2, 70–2, 97, 125, 142
and masturbation, **12**: 237–8, 243
distinguished from psychoneuroses, **3**: 262–5, 272–4, **20**: 21, 125
no psychical mechanism in, **3**: 54, 73–4, 96–7, 102–3, 110, 111, **12**: 245
use of term, **24**: 56
Adam Bede (by *G. Eliot*), **4**: 258
Addiction (*see also* Alcoholism; Drug addiction; Narcotics), **1**: 117, 169, 298
relation to masturbation, **1**: 298, **3**: 270, **12**: 249 *n.* 2, **21**: 179 *n.* 1
Addison's disease, **7**: 288
Adelaide Bay, **13**: 58
Adige, River, **10**: 199
Adler, A. (*see also* 'Confluence of drives'; 'Individual psychology'; 'Masculine protest'; 'Organ inferiority'; 'Power, will to'; *and* Index of Names)
disavowal of repression by, **10**: 107 *n.* 1, **14**: 4, 48, 49–50, **17**: 99, 174, 195–7, **18**: 242
secession of, **15**: 180 *n.* 2, **16**: 217 *n.* 2, 305 and *n.* 2, **20**: 46, 253
theories of, disputed, **14**: 4, 44–54, 56–7, 62, 80 and *n.* 1, 86, 107 *n.* 2, 128
theory of aggressive drive of, **10**: 106–7
theory of neurotic anxiety of, **10**: 106–7
Adolescence (*see also* Puberty), **2**: 83 *n.* 2, 118, 187, 214, 217–18, **3**: 89, **11**: 221, **18**: 158
Adonai (*see* God; *and* Index of Names)
Adriatic, the, **3**: 281, 284, **5**: 415–17
L'Adultera (by *T. Fontane*), **6**: 153
Aegina, **11**: 98 *n.* 2
Aeneid, the (by *Virgil*), **3**: 307 and *n.* 1, **5**: 544 *n.* 1, **6**: 9, **23**: 110 *n.* 1
'Aesthetic assistance', principle of (*Fechner*), **8**: 118–20
Aesthetics (*see also* Art), **7**: 186 *n.* 1, **8**: 9–10, 84, 104, 106–7, 119, 120 *n.* 2, **9**: 131, **13**: 176–7, **17**: 215–16, 240, 244, **18**: 8 *n.* 3, **21**: 74–6, 84–6, 201, **22**: 224–5
Aetiological equation (*see also* Complemental series), **3**: 107–8, 120–2, **11**: 136, **16**: 306 *n.* 1, 319
Aetiology (*see also* Aetiology, sexual, of neuroses; Childhood experiences/impressions and aetiology of neurosis; Heredity; Heredity and experience as aetiological factors; Neurosis, aetiology of), **1**: 250 *n.* 2, **3**: 102 *n.* 1, **7**: 72 *n.* 2, **12**: 233 *n.* 1, **14**: 49 *n.* 2, **16**: 319 *n.* 2

different classes of causes in (*see also* Aetiological equation; Complemental series), **3**: 33–4, 95, 120–3, 156, 214–16, 250
emotional disturbance in, of neuroses, **3**: 157–8, 250, 266–7, 273–4
exhaustion in, of neuroses, **3**: 157, 267
fright in, of neuroses, **2**: 5, 10, 33–4, 82, 185, 189–90, 201, 220, **3**: 96, 111–15, 201, 214
of actual neurosis, **3**: 158–65, 259–78, 317
of anxiety neurosis, **3**: 74, 89–123, 160, 177–8, 249–50, 263–4, 270–3
of hysteria, **1**: 251 *n.* 1, 255–8, 263–70, 286, 369–70, 372–81, **2**: xxiv–xxvii, xxix, 90, 117–18, 144–6, 149, 155–6, 194–5, 209, 217–22, 229–32, 244, 289, 306, **3**: 27–37, 44–8, 72, 103, 160–5, 170, 174–8, 197–225, 243–4, 247–8, 249–50, 251–2, **4**: 133, **5**: 310, **7**: 4, 7–8, 12–13, 23, 25–6, 72, 100–2, 113–14, 146–7, 282–8, **22**: 106, 125
of melancholia, **1**: 149, 211, 214, 226–7, 259
of neurasthenia, **1**: 170, 205–14, 219, 222, 228, 241, **3**: 97–8, 109, 159–60, 177–8, 263–4, 269–70, **12**: 244–5
of obsessional neurosis, **1**: 214, 251–3, 257–8, 263–4, 274, **3**: 48–54, 67–72, 160, 164–5, 170, 178–83, 223–4, 247–8, 251, **10**: 119, 127, 168, 184–6
of perversion, **7**: 133–4, 139–45, 151–2, 169–70, 173, 205, 212–15
of phthisis pulmonum, **3**: 121
of psychosis, **4**: 32
of psychoneuroses, **3**: 272–8
of smallpox, **3**: 215
of tuberculosis, **3**: 215
overwork in, of neuroses (*see* Overwork)
physical illness in, of neuroses, **3**: 157–8, 250, 266, 273
sexual (*see* Aetiology, sexual)
sick-nursing in, of neuroses (*see* Sick-nursing)
specific factor in, **3**: 92, 95, 109, 113, 115–116, 120–2, 155–60, 165, 174–8, 215–16, 250, 251, 266
'stock' factors in, **3**: 89, 92, 94–5, 112–13, 115–16, 118, 121, 157–8
summation in, **3**: 92, 95, 115, 136
traumatic (*see* Aetiology, traumatic, of neuroses)
Aetiology, sexual
of actual neuroses and psychoneuroses, **3**: 158–65, 259–78, 317
of anxiety neurosis, **3**: 89–100, 109–23, 177–8, 249–50, 263–4
of hysteria, **1**: 251 *n.* 1, 255–8, 263–70, 286, 369–70, 372–81, **2**: xxiv–xxvii, xxix, 90, 117–18, 146, 209, 217–22, 229–32, 244, 289, 306, **3**: 45, 103, 160–4, 170, 174–8, 206–25, 251, **4**: 133, **5**: 310, **7**: 4, 7–8, 12–13, 23, 25–6, 72, 100–2, 113–14, 146–7, 282–8
of neurasthenia, **1**: 170, 205–14, 219, 222, 228, 241, **3**: 109, 177–8, 263–7
of neuroses, **1**: 52–3, 170, 205–31, 241, 244, 248–52, 255–8, 262–70, 286, 300, 315, 370, 375–81, **2**: xxi, xxiv–xxv, xxvi, 179, 219–20, 228–32, 244, 293, 303, **4**: xxxi, 163 *n.* 3, 209–10, 228, 231–2, 267–8, **5**: 393, 542, 599, **9**: 4, 70, 111, 113, 115, 160, 162–3, 164–77, 221, **11**: 39–40, 43–4, 46–51, 168–72, 176–7, 192–3, 204–5, **13**: 73–4, 86, 115, 122, 147, 151, 177–8, **14**: 9–11, 14–15, 17–18, 24–6, 34, 44–5, 49, 55–6, 57–8, 110, 283, **15**: 21, **16**: 217 *n.* 3, 233, 237, 264–6, 281, 289, 299, 306–10, 319–20, 335–55, 382, **17**: 128–9, 131, 188, 198, 204–5, 254, **18**: 39–40, 49, 132, 236–40, **20**: 19–22, 28–32, 43, 46, 48, 53, 114, 135, 184–5, 187, 201, 250–2
of obsessional neurosis, **3**: 49–53, 68–70, 164–5, 170, 178–83, 223–4, 251
of paranoia, **3**: 170, 183–92, 223–4, 251
of phobias, **3**: 73–4, 118
of symptoms, **18**: 236, 240, **20**: 19–22, 28–32, 43, 46, 48, 53, 114, 135, 184–5, 187, 201, 250–2
Aetiology, traumatic, of neuroses, **1**: 167, 176, 286–7, 297 *n.* 2, 300 *n.* 5, 304 *n.* 1, **3**: 27–37, 45–7, 160–5, 174–8, 181,

Aetiology, traumatic, of neuroses (*cont.*) 200–4, 251, **11**: 15, 17–18, 19–20, 22–5, 27, **14**: 6, 7–8, 14–15, 229, 317, **16**: 217 *n.* 3, 241–3, 248, 305–6, **23**: 62–3, 67–74, 89, 91, 162, 166–7, 192, 199, 200–2, 204, 211, 249
in hysteria, **2**: xxi, xxvii, 5–6, 7–15, 76–80, 84, 89–91, 95, 107–9, 144, 149, 154, 159, 186, 197, 238, 255–6 **3**: 25, 29–37, 47, 174, 243–4
seduction theory abandoned, **3**: 258
seduction theory revised, **3**: 178 *n.* 1, 210 *n.* 1, 211 *n.* 1
Affect (*see also* Anger; Anxiety; Depression; Emotion; Fear; Pain; Panic; Pleasure; Unpleasure), **1**: 130, 149, 176, 215, 228, 360–1, 378, **9**: 47, 86–7, 113, 141, 203 *n.* 1, 204 *n.* 1, **19**: 6 *n.* 4, 120, 191–2, 195, 238, **23**: 62, 111, 142, 203 *n.* 1, 234
abreaction of, **3**: 35–6, **20**: 18–19, 26, 247–8
and conflict, **2**: 102, **7**: 23
and consciousness, **1**: 313 *n.* 2, **5**: 412 *n.* 2, **12**: 217 *n.* 1, **14**: 156–9, **18**: 11 *n.* 1, **19**: 158 *n.* 1, **21**: 122, **24**: 75
and dreams (*see* Affect in dreams; Anxiety dreams)
and drives (*see also* Pleasure principle), **20**: 249
and experience of birth, **5**: 358 *n.* 2, **11**: 160
and forgetting, **6**: 18–19, 20, 36, 38, 119–22, 124–9, 232 *n.* 1, 235–6
and humour, **8**: 198–203, 204–5, **21**: 147–8
and memory, **1**: 404–6, **2**: 7–11, 13–14, 107–8, 154–5, 183–4, 190, 201, 264–5, **23**: 203 *n.* 1
and motor discharge, **3**: 60, **14**: 158, 166, 200–2
and predisposition to illness, **7**: 245, 249–50
and repression (*see* Repression and affect)
and sexual excitation, **7**: 179–180, 206, 295
and slips of the tongue, **6**: 46 *n.* 2
and trauma, **2**: 5–6, 10–12, 76–80, 113, 188, 189–90
and unconscious mental processes, **7**: 53, 223
and words, **15**: 17, 187
anxiety as, **22**: 72, 75
as reproduction of early experience, **20**: 74, 83, 118, 133–4, 143
as residue of experience of pain, **1**: 345–8
asthenic, **2**: 179–180

aim of, **7**: 162–4, 183
and aetiology of neuroses **4**: 228–33, **7**: 51, 112–13, 152–3, 156, 177, 197–8, 207, **9**: 211–13, **10**: 5–6, 78, 108, 136–7, 142, 155, 158 *n.* 1, 168, 184–5, **11**: 46, **13**: 140 *n.* 1, **14**: 61–2, 66–7, 74, 75–80, 87, 116–22, **16**: 305–6, 307, 310, **17**: 128
and object choice, **7**: 51, 138 *n.* 1, 154 *n.* 2, 160–2, 170, 171 *n.* 2, 176, 183 *n.* 1, 196, 206–7, **10**: 12–15, 21, 25 *n.* 1, 26, 71–2, 83–5, 101, 108, 158 *n.* 1, **11**: 168 *n.* 3, **12**: 53 *n.* 1, 314, 318, **14**: 76–8, 88, 111, **16**: 287, 288–90, 296, 376–7, **18**: 97–8, 100, 205–6, 239, **19**: 9, 26–9, 43, 247 *n.* 3, **21**: 21, 62, **22**: 56, 76, 88, 104–7, 109–10, 114–15
and Oedipus complex, **7**: 50–1, 199 *n.* 3, **18**: 97–8, 100, 146, 157–9, 182, 205, **19**: 27–8, 167, 170–3, 246–7, 250–2, 256–8, **22**: 76–7, 104–6, 113–15, 180–3
auto-erotic nature of, **7**: 72 *n.* 1, 161–2, 171 *n.* 2, 175–6, 183, 196, 206–7, 284, **11**: 42–4, **12**: 220, 310–11, 316
based on erotogenic zones, **5**: 340, **7**: 28, 47, 73–4, 113, 158, 161–71, 183, 197, 205–6
capable of sublimation, **11**: 51–2, 75–6, 177, 204, **12**: 207
first efflorescence of, **7**: 157, 167–8, 172, 176–7, 183, 205, 206
in '*Little Hans*', **12**: 24 *n.* 2
in '*Rat Man*', **10**: 123–5, 127, 140, 155, 156–7, 165, 167, 185
incestuous fixation in (*see* Fixation, incestuous infantile)
literature of, **7**: 154 and *n.* 2
sources of, **7**: 177–82
Infantile wishes, **4**: xxi, 169–71, 173–4, 193–4, 216–19, 221–2, **5**: 494–5, 497, 507, 527, 535, 540–2, 582–5, 610–11, 613, **7**: 63, 76–7, **11**: 40, 41, 45, 51, 114, 158–9, 192
auto-erotic, **5**: 340
for death of rival, **4**: 221–31, 233
fratricidal, **1**: 281–2, 292, **4**: 222–37, 292–3, **10**: 40, 70, 85–6, 87, 96, 98, 99–100, 102, 137–41, 142, 154, 178–9, 198–9, 210, 224, **14**: 214, 325, 335, **21**: 159, 170–1, 172–4, 226
incestuous (*see* Incestuous impulses)
Infantilism, **12**: 207, **13**: 25, 174, **16**: 285, 310
in psychoanalytic theory, **12**: 207
Inferiority
complex, **22**: 58
delusions of, **5**: 420, **14**: 219–20, **18**: 123
feelings/sense of (*see also* 'Organ inferiority'), **14**: 86, 219–20, **16**: 358, **17**: 188–9, **18**: 20–1, 122–3, **19**: 45, 171, 254–5, **20**: 46, 133, **22**: 58–9, 69, 125, 258
Inferno (by *Dante*), **17**: 242
Inhibition, **1**: 348 *n.* 2, **16**: 299, **22**: 55, 111, 150, 233–4, **23**: 70–1, 141, 150, 172, 195, 198, 206, 234, 274, 275
and anxiety, **1**: 205–7, **20**: 78, 90, 97–8, 111–12, 125, 128
and symptoms distinguished, **20**: 77–80, **24**: 128
as self-punishment, **20**: 80
by the ego, **1**: 348–54, 357, 364–5, 383, 405, 417
developmental (*see* Inhibition in development)

Inhibition (*cont.*)
in latency period, **20**: 32
in melancholia, **1**: 232–3
in obsessional neurosis, **20**: 80
in work, **19**: 71, 73, 78, 91
lifted by jokes, **8**: 103–4, 113–15, 116–18, 121, 129–37, 148–50, 160
neurotic, **11**: 75
of affect, **11**: 70–1, 96, 108–9
of antithetic ideas, **1**: 149–50, 152–4, 166, 181
of drive aim, **18**: 85, 96, 103–7, 116, 128–33, 248, 249, **20**: 33, **21**: 92–3, 97–8, 100, 109, 221, **22**: 86
of function, **1**: 205–7, **20**: 21, 77–80, 90, 97–9, 111–12, 128, 186, 251
of movement in dreams (*see* Dreams, inhibited movement, feeling of, in)
of thought, as mode of defence, **1**: 257, 259
of unpleasure, **1**: 262–3
specific and general, **20**: 79–80
use of term, **24**: 68
Inhibition in development (*see also* Disposition; Fixation), **13**: 25, **16**: 321
as cause of illness, **12**: 93–4, 207, 230–2
biological causes of, **12**: 314
constitutes disposition, **12**: 207, 220–1, 230–1, 314
of libido, **11**: 168
Inhibitory expenditure
in jokes, **8**: 103–5, 111–12, 117–18, 121, 129–37, 204–5
in the naive, **8**: 158, 160–3
lack of, in the comic, **8**: 204 *n.* 1
Initiation rites (*see also* Puberty rites), **13**: 27, 30, 100, **21**: 93
Innervation
feeling of, **14**: 187
motor, included in affects, **3**: 60
periodical, of the perceptual system, **19**: 230–1, 240
somatic, in conversion, **3**: 46–8, 51, 184, 248
use of term, **5**: 480 *n.* 1
'Innocent'
dreams, **4**: 161–6, 176, **5**: 355–6, 359–60, 375, 602, 613–14, **19**: 120
jokes, **8**: 79–85, 89–91, 103, 105, 116–17, 120–1, 124–6, 147, 153–3
Innsbruck, **21**: 244–5
